

CLASSROOM OPPORTUNITIES

As a part of the Build Your Future Arizona (BYFAZ) construction career awareness campaign, we share information about construction career options, available training, and income potential so young adults can learn about different construction career pathways. Part of the awareness campaign includes 50-minute presentations in high school classrooms. We have seen the most interest when construction professionals from our BYFAZ investor companies participate in these presentations. Your participation will only take about 10 minutes to discuss your construction career journey, thoughts and plans as you graduated from high school, and what you enjoy most in your current construction role. We would love to have you join us in at least one of these classroom presentations. Our current openings are:

CAREER FAIR OPPORTUNITIES

Another way Build Your Future Arizona (BYFAZ) is getting in front of the next generation to spread awareness around careers in construction is by participating in career fairs at high schools and colleges. Fall career fairs help provide students with information about construction career options, training, earn-while-you-learn programs, as well as postsecondary training to help jumpstart a construction career. The following schools below are holding college and career fairs and would love to have your company participate. If you don't have the staff and resources to host your own exhibit table, an employee can join the BYFAZ table to talk about career opportunities at your company or organization. Below are upcoming college and career fairs:

MOCK INTERVIEWS

Estrella Foothills High School needs volunteers to participate in their mock interviews from December 11th through December 15th from 7:30 a.m. to 2:00 p.m.. Most construction professionals cannot devote an entire day to this activity, but if you can provide at least 2 hours, that would be great. If you would like to participate, contact Haley Strange, Future Ready Teacher Haley.strange@buhisd.org
